

## Compact All-In-One with multiple wireless printing options, borderless photo, and built-in two sided document printing.

- PIXMA Printing Solutions (PPS) lets you print and scan photos or documents from your mobile device and even directly change printer settings and view status information.<sup>1</sup>
- Built-in automatic 2-sided printing helps the environment and can cut your paper usage by up to 50%.
- Hybrid Ink System utilizes pigment black ink for crisp text, and color dye ink for beautiful photos.
- AirPrint Enabled! Print wirelessly from your iPhone, iPad or iPod touch directly to your MG3520, no drivers needed.<sup>2</sup>

<b>DATE</b>	
Availability	September 2013

**SPECIFICATIONS ARE SUBJECT TO CHANGE WITHOUT NOTICE. ALL VIEWSCREEN AND PRINTER OUTPUT IMAGES ARE SIMULATED.**

- 1 Requires the PIXMA Printing Solutions (“PPS”) app, available for free on the App Store and at Google Play. Compatible with iPad, iPhone 3GS or later, and iPod touch 3rd generation or later devices running iOS 5.1 or later, and Android mobile devices running Android 2.3 or later. Your device must be connected to the same working network with wireless 802.11 b/g/n capability as your printer. Certain functions require an internet connection. For users of compatible Apple mobile devices, document printing requires Apple AirPrint, which requires an AirPrint-enabled printer connected to the same network as your iOS device. A printer connected to the USB port of your Mac, PC, AirPort Base station, or Time Capsule is not supported. Document printing for Android will be supported November 2013 or later.
- 2 AirPrint functionality requires an iPad, iPhone 3GS or later, or iPod touch 3rd generation or later device running iOS 4.2 or later, and an AirPrint-enabled printer connected to the same network as your iOS device. A printer connected to the USB port of your Mac, PC, AirPort Base station, or Time Capsule is not supported.
- 3 ISO/IEC 24734, 24735 define the default print and copy speed measurement methods. Print speeds are the averages of ESAT in Office Category Test for the default simplex mode, ISO/IEC 24734, excluding time to print the first set. Copy speed is the average of FCOT, ISO/IEC 24735 Annex D. See [www.usa.canon.com/ipm](http://www.usa.canon.com/ipm) for additional details.
- 4 Photo print speeds are based on the standard mode driver setting using photo test pattern(s) and select Canon Photo Paper. Print speed is measured as soon as first page begins to feed into printer and will vary depending on system configuration, interface, software, document complexity, print mode, types of paper used, and page coverage. See [www.usa.canon.com/printspeed](http://www.usa.canon.com/printspeed) for additional information.
- 5 Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard.
- 6 Resolution may vary based on printer driver setting. Color ink droplets can be placed with a horizontal pitch of 1/4800 inch at minimum.
- 7 To install using Windows® OS, .NET Framework 4 is required. Compatible still image formats are PDF (created using Canon PDF Creator only), JPEG (Exif), TIFF, and PNG. Compatible video formats are MOV (from select Canon digital cameras only) and MP4 (from select Canon digital camcorders only).
- 8 “Full HD Movie Print” is available from “MOV” and “MP4” movie files created by select Canon EOS, PowerShot, and VIXIA digital cameras and camcorders. Requires PC or Mac with Intel® processor and Canon ZoomBrowser EX 6.5 or later or Canon ImageBrowser 6.5 or later for “MOV” files, or Canon ImageBrowser EX 1.0 or later for “MOV” or “MP4” files. Print quality is determined by the video resolution. Function does not upscale video resolution.
- 9 Wireless printing requires a working network with wireless 802.11b/g or n capability. Wireless performance may vary based on terrain and distance between the printer and wireless network clients.
- 10 Requires an Internet connection and Google account. Subject to Google Terms of Service. Certain exceptions may apply.
- 11 Envelopes and High Resolution Paper are NOT supported for borderless printing.
- 12 For network users, Auto Scan Mode is available only when scanning at a computer using My Image Garden software and selecting the 1-click feature then “Save to PC”.
- 13 CREATIVE PARK PREMIUM is a premium content service available exclusively to users only when all of the colors of genuine Canon inks and all of the software that came with the printer are properly installed.
- 14 System requirements vary by application. For Mac OS, an Internet connection is required during software installation. For Windows OS, .NET Framework 4 is required to install My Image Garden, Quick Menu, and Easy-WebPrint EX software.
- 15 Easy-WebPrint EX requires Internet Explorer 7 or 8 for Windows, Internet Explorer 9 or 10 for Windows Vista SP2 (or later) or Windows 7, or Safari 4.0 – 5.0 for Mac OS X v10.5.8 – 10.6.x.
- 16 Warranty programs are subject to certain conditions and restrictions. See [www.usa.canon.com/support](http://www.usa.canon.com/support) for details.
