CPR CALL BLOCKER TOP 10 FAQS

WILL CPR CALL BLOCKER WORK WITH MY LANDLINE?
CPR Call Blocker is Compatible will ALL major USA landline providers, including AT&T, Verizon, Ooma, Charter, Comcast, Century Link, Frontier, Fairpoint, Windstream, Hawaiian Telcom, Cincinnati Bell etc..

WILL CPR CALL BLOCKER WORK WITH MY HOME PHONE?
CPR is compatible will ALL major landline phone manufacturers including, AT&T, Panasonic, Uniden, Motorola, VTech, Swissvoice, Gigaset, Philips etc.

DO I NEED CALLER ID ENABLED FOR THIS PRODUCT TO WORK?
Caller ID must be enabled on your telephone line by your provider for the product to work effectively (without caller ID, the Call Blocker will block ALL calls).

DOES THE CPR CALL BLOCKER WORK WITH ANSWERING MACHINES?
The CPR Call Blocker shouldn't interfere with the functionality of answering machines, but if it does, it's just a case of altering the number of rings required for the answer machine to kick in. We recommend setting your answer machine to 5 rings or slightly lower.

CAN I USE THE CPR CALL BLOCKER WITH MULTIPLE TELEPHONE EXTENSION JACKS?
Yes, you can but many problems can arise so it isn't recommended. If you wish to have multiple phones around the house, then it's best to use a DECT (Digital Enhanced Cordless Telephone) phone with multiple cordless handsets connected to the main base station with the Call Blocker at the main wall jack.

HOW MUCH POWER DOES THE CPR CALL BLOCKER USE?
The CPR Call Blocker uses the power from your telephone line.

WILL CPR CALL BLOCKER WORK ON TWO LINE PHONE SYSTEMS?
CPR will work with two-line phone systems but if both lines require protection two call blockers will be needed, for more information on two line setups please contact CPR directly.

DO I HAVE TO ANSWER THE CALL TO BLOCK IT?
You do not need to answer the call to block it, if you wish to block an unfamiliar number simply press the BLOCK NOW button at any time during the call.

CAN CPR CALL BLOCKER WILDCARD BLOCK AREA/STATE CODES
Yes, If you wish to block all numbers starting with 888 or 876 for example, you can do this by entering a quick programming code from the user guide.

CAN I BLOCK CALLS FROM EXTENSION HANDSETS?
Yes, you can block calls from any extension phone handsets connected through the same phone base that the call blocker is connected to by answering the call and pressing #2.
